## Multi-Disciplinary Connections Chart

Use the following chart to help you plan how the Hudson River Museum objects and featured artists, or other local exhibitions and institutions, may fit into your classroom curriculum. You may want to consider your classroom's themes for the year, standards you are focusing on, or the learning styles of your students.

If you have questions about using this chart, or want to talk with us about your ideas, please e-mail the HRM education team at: [education@hrm.org](mailto:education@hrm.org)

DISCIPLINE	OBJECT/ARTIST
English Language Arts
